- ✓ White panel for layering
- ✓ Silver mirri card
- ✓ Blue rainbow card
- ✓ Dawn Bibby designs little silver peel-off daisies
- ✓ Glue Dots
- ✓ Foam fixers
- ✓ Scissors

Create some really pretty flower and butterfly designs using the latest Dawn Bibby products!

Butterflies

- 1 Cut a panel of pink printed daisy vellum measuring about 4.5x15cm. Cut a wavy edge on the long sides. Attach to the centre of the card with silicone glue.
- 2 Cut a piece of gold mirri card slightly larger than the 'Best Wishes' panel. Mount the 'Best Wishes' panel to the mirri card with Glue Dots and then mount the mirri card to the front of the card with foam fixers.
- 3 Stick a selection of peel-off butterflies onto green rainbow card and then cut out each one.
- 4 Attach the butterflies to the card using silicone glue (only place the glue in the

middle of each butterfly). Once attached, tilt the wings of the butterflies. Place one butterfly so it overlaps the top of the card and when dry cut the butterfly so it is in line with the top of the card.

Pink flowers

- 1 Cut three squares of pink vellum 4.2x4.2cm so each square fits inside the squares on the front of the card. Fix in place with silicone glue.
- 2 Stick daisy peel-offs onto pink rainbow card and cut out each one. Stick peel-off leaves onto green rainbow card and cut out each one.
- 3 Arrange flowers and leaves on the card as shown. Attach the base ones with silicone glue and the top ones with foam fixers to add depth to the card.

Blue daisies

- 1 Open up the scallop edged card and place onto the back of the 'Best Wishes' blue card. Draw round the left half side of the card and cut out. Attach to the front of the card with Glue Dots.
- 2 Attach the blue 'Just Because I Love You' panel to the white panel with foam fixers. Attach to silver mirri card with Glue Dots and then trim to size leaving a thin border.
- 3 Randomly stick silver peel-off daisies to the card as shown.
- 4 Stick approximately 13 daisies onto blue rainbow card and cut each one out. Randomly attach to the card with glue and attach a couple with foam fixers to add depth.
